Numerology CRM Management System with Client PWA

Prepared By: Codigix Infotech Pvt. Ltd.

1. Project Overview

The Numerology CRM Management System is designed to manage the complete lifecycle of clients through a centralized platform consisting of:

- Admin Dashboard
- Student (Mentor) Dashboard
- Client Dashboard
- Remedies Management
- Follow-Up Management
- Client PWA

The system enables Admin to manage students and clients, allows mentors to provide remedies and follow-ups, and gives clients access to their progress and assigned activities through the dashboard and mobile PWA.

2. User Roles

Admin

System Owner

Responsibilities:

- Manage Students
 - Manage Clients
 - Manage Packages
 - Monitor Reports
 - Manage Users
